

Maravon *Careers*

About Maravon

Maravon is a management consulting and service firm that helps leading organisations improve their performance in all matters with regard to finance. We work with corporate and investment banks, corporates and institutional investors in a broad range of financial management areas across strategy, innovation, methods, organisation, investor communication and technology.

Working Students Around Frankfurt/Main or Dresden for Developing Financial Analytics Tools (females/males)

Starting Date: February/March 2010

Your Assignment

Our Technology team is seeking an energetic, highly motivated working student who has a passion for financial engineering and programming. The person will be part of Maravon's quant team and engage in the further development of the Maravon Analytics Library (MAL).

Besides exceptional programming skills and devotion to creating great software, we look for the following kinds of expertise or experience:

- You are studying computer science, information technology, business administration, economics mathematics or physics either nearby Frankfurt am Main or Dresden
- You are strong in programming in C++, MySQL and Visual Basic for Applications and would be able to demonstrate your capabilities during an interview
- You have interest in capital and commodity markets, their financial instruments and applications
- You like to work both in teams and autonomously
- You are reliant, engaged and open-minded
- You speak German fluently and are conversational in English

Experienced consultants will provide you with ongoing guidance and coaching, not only for your job with Maravon, but also for your studies. Should you like to write your master thesis with Maravon, we would be happy to assist you. Your successful working student period with Maravon may lead to an offer of a permanent full-time role.

For further questions, please contact Dr. Jan Rudl under +49 69 505 092 465 or technology@maravon.com. Should your profile match our requirements, then **please send your complete application documents in either German or English to hr@maravon.com**.
